

ALBION

**Environmental
Policy**

It's all at Albion

Albion Valves (UK) Ltd recognises that its activities have environmental implications which can be detrimental or beneficial. The company also recognises that effective management of our environment makes good business sense and will be a fundamental and integral part of our business strategy.

Albion Valves (UK) Ltd is therefore committed to:

Being aware of how our activities impact on the environment and seeking to minimise any adverse effects by employing best available, cost-effective techniques through a policy of improvement.

Albion Valves (UK) Ltd will also comply with all our legal responsibilities and is further committed to conserving natural resources by:

- Ensuring lights, electrical appliances, heating systems and machinery are maintained and operated efficiently.
- Avoiding waste and encouraging conservation, re-use and recycling.
- Reducing, wherever possible, air, land and water pollution.
- Being sensitive to the environmental concerns of our neighbours and communities through which we operate and responding to concerns they may raise.
- Adopting environmental objectives to continually improve our environmental performance and monitor progress.
- Requiring our suppliers and contractors to have a proper regard for environmental policy for the goods and services they provide.
- Encouraging personal effort on the part of all employees to avoid and prevent environmental damage and to re-use and recycle company materials wherever possible.
- Communicating this policy to all our staff, suppliers and customers and ensuring it is implemented.
- Ensuring all our staff receive adequate information, instruction and training to ensure they act with due consideration for the environment.
- Reviewing the policy annually or whenever necessary to comply with changes in legislation or company policy.

Albion Valves (UK) Ltd's Environmental Management System is externally audited by United Registrar of Systems Ltd and has been certified as meeting the requirements of BS EN ISO 14001:2015 for Environmental Management Systems.

This policy is approved by Albion Valves (UK) Ltd's Board of Directors.

About Albion Valves (UK) Limited

Albion Valves (UK) Limited has been in the industrial heating and valve market for over 40 years, with this comes a wealth of knowledge and expertise that allows us to support our network of independent distributors and their customers.

Albion aims to supply a readily available, complete, quality valve solution alongside excellent cradle-to-grave support and service.

That is why we say, 'It's all at Albion'.

Quality

Whatever you need, you can rest assured that if it comes from Albion it has been designed and manufactured to deliver optimum performance and is accredited with the necessary approvals. Our in-house quality and technical departments are always on hand too!

Service

Our cradle-to-grave approach means you will never be on your own. Whether you need assistance with your system designs, an industry-leading turnaround time on your quote, or some help with commissioning after installation, we have a team to help!

Delivery

We know that time is money, and when a priority project depends on a part, you can trust Albion to deliver. We deliver 95% of products the next day with 99.98% accuracy!

Choice

We may have started with a single brass ball valve, but our range has grown substantially since and we can now offer a full building services valve solution, alongside a comprehensive range of valves for the industrial and process markets.

It is becoming more and more apparent to the industry, that it really is, all at Albion.
